

SLAVIK– TECHNICKE PLASTY, your specialist in thermoplastics processing

Focus on:

- Machined plastic parts
- Machined composite parts
- Welding – bending – gluing plastics

Equipment:

- 3D – 4D – 5 D CNC milling machines
- CNC Turning and milling centres
- Welding + extrusion+ hot air + polyfusion
- CAD/CAM Solid Works, HSM Works; Alphacam
- CRM production and stock management

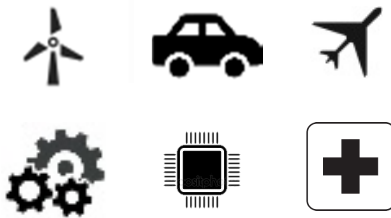

OUR EXPERIENCE IN NUMBERS

15 years	22 000 Total orders	300 Customers/ year
--------------------	-------------------------------	----------------------------------

INDUSTRIES:

MATERIALS:

- High – temperature plastics
- Engineering plastics
- Polyamides
- Polyurethane elastomers
- Electrical insulates
- Aluminium

WHY TO WORK WITH US:

- Prototypes, custom-made and mass production, individual approach
- Wide range of materials and advice on selection
- Modern technology, permanent investment in production
- Direct flights from London to Ostrava and Katowice
